Beach sandal - includes weight which is tied to sole by using rustproof wire, and straps clung to foot

TANABE F 97.04.14 97JP-130232

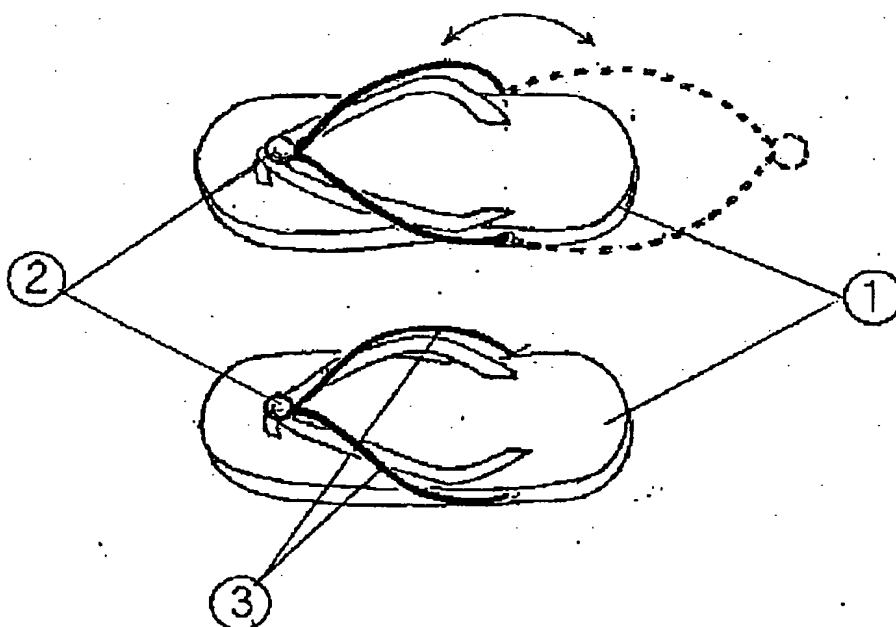

(98.10.27) A43B 3/12

The sandal (1) has a sole and straps for clinging the foot. A weight (2) is clung to the sole by using a rustproof wire (3).

ADVANTAGE - Wearing person need not worry when leaving his or her beach sandal in shore because sandal is not easily carried away by water current into e.g. sea.
